Question 2: We never used any of the chemicals listed.

Question 3: We did not create any solid wastes.

Question 4: We never had any spills of chemicals.

Question 5: We never had any permits as our operation did not product enough to warrant a permit.

Question 6: There is no other person that would have information about our facility as we did not nor have we ever had anything to do with chlorinated solvents at any facility we have ever been in.
